

# Vendor Managed Inventory Solutions

Applied Maintenance Supplies and Solutions®

Applied Maintenance Supplies & Solutions® (Applied MSS<sup>SM</sup>) brings lean principles to your management of MRO consumables through customized solutions. We help you take control of maintenance costs, reduce the hassles of finding replacement parts and increase the time spent on the job.

Every Small Part Counts

We're here to manage them for you!

## Vendor Managed Inventory (VMI)

Our MRO specialists are enabled with the latest mobile technologies and customer account management capabilities. With our barcode scanner order processing system, your Applied Maintenance Supplies & Solutions® account manager has immediate access to all of your account history and full visibility to available stock throughout the Applied MSS<sup>SM</sup> distribution network. The system includes bar code scanning that improves order accuracy and expedites the electronic order placement and fulfillment timeline.

We use the latest technology to provide you with:

- » Dock-to-Stock service
- » Vending capabilities
- » Complete bin management solutions
- » Replenishment cycle schedule based on needs
- » Real-time, detailed quote generation
- » Real-time purchase order processing
- » Dedicated field account managers
- » Labels available with every order
- » Product shipped, received, verified and stocked

No matter which solution is right for your business, you can rely on Applied MSS<sup>SM</sup> for quality products and years of industry expertise. We can help you increase efficiency and control costs so that you have the right items on hand when you need them.

# Applied MSS<sup>SM</sup> 6-S Inventory Management System

The 6-S System allows Applied Maintenance Supplies & Solutions<sup>®</sup> to manage MRO inventory to customer specifications. Using Lean Principles keeps your small parts inventory organized and in stock, using state-of-the-art technology.

Benefits:

- » Sort – Organize, sort and separate what parts are needed & not needed in the work area
- » Set In Order – Bin, label and arrange items so that they are ready & easy to use
- » Shine – Maintain a clean workspace for ease of identifying parts
- » Standardize – Set min and max levels on a frequent basis and revisit to confirm usage
- » Safety – Maintain a safe work environment and continue to improve safety in the workplace
- » Sustain – Consistent service that continues to improve every day

Improve your operational productivity with a lean managed system.
