PART #	VENDOR #	DESCRIPTION	QTY.
118912900	300280	15oz. (425g)	6

DID YOU KNOW

While Sprayway® might remove static electricity, it's actually that very static charge that many air purifiers and dust collectors rely on! These devices use plates charged with opposite polarities. Dust particles, which can also carry a charge, are attracted to the oppositely charged plates, effectively removing them from the air we breathe. This same principle is even used in large-scale industrial settings to help reduce air pollution.
