

SIGMA Z GRINDING WHEEL

Engineered for steel, stainless steel, nickel alloys and superalloys, Sigma Z optimizes production with exceptional metal removal rate and superior operator control.

Precision-balanced for noticeably smoother and quieter operation, it is operator-friendly with chatter-free grinding.

METALS

- Stainless steel
- Steel
- Galvanized steel
- Titanium
- Nickel alloys
- Superalloys

APPLICATIONS

- Tank fabrication
- Maintenance and repair
- Welding/metal fabrication
- Shipbuilding
- Foundries

PRODUCT FEATURES

- Premium grain
- Rapid metal removal
- Grinds smooth and quiet
- Minimizes operator fatigue
- Cool grinding
- Won't discolor or warp stainless
