# WHY APPLIED MSS<sup>SM</sup>

Applied Maintenance Supplies & Solutions (Applied MSS) brings lean principles to your management of MRO consumables through multiple solutions. We help you take control of **maintenance costs, reduce the hassles** of finding replacement parts and increase the time spent on the job.

**Our inventory management solutions help you increase productivity and decrease total cost of managing your MRO supplies.**

## **We deliver solutions that fit your business needs:**

- » Order approval controls put you in the driver's seat
- » Over 60,000 quality products stocked
- » Product standardization and inventory optimization programs
- » Large network of reliable suppliers
- » Management reporting
- » Vendor Managed Inventory (VMI)
- » EDI capabilities

**Right service, right products, when you need it, where you want it**

**Every small part counts.**

**We're here to manage them for you!®**

# DOWNTIME IS COSTLY

The average fleet operates just **34,629** miles between **unscheduled** roadside repairs.\*

**The most frequently repaired fleet systems are\*:**

- » Exhaust
- » Lighting
- » Power
- » Brakes
- » Tires, Tubes, Liners, Valves

**The top 3 challenges shops face\*\*:**

- » Hiring Techs
- » Inefficiencies in Repairs
- » Inventory Management

**Don't let small parts cause you BIG problems.**

# STAY UP & RUNNING

## Fleets keep *moving* with Applied MSS<sup>SM</sup>.

### VENDOR MANAGED INVENTORY

Reduce inventory costs, increase your profitability, increase uptime, optimize inventory levels and reduce overstocks & stock shortages.

### VENDING SOLUTIONS

Bring control to your distributed inventory so you know where your assets and consumables are at all times.

### CLEAN SWEEP - PROGRAM -

Turn obsolete parts into credit towards Applied MSS<sup>SM</sup> purchases. We will identify and remove old, overstocked or obsolete small parts and storage equipment as part of the cleanup.

### FULL TRANSFORMATION

Transform your current operation into an efficient, fully-stocked, custom parts system. This includes site surveys, plan-o-graphs, installation, set up, and inventory.

# INVENTORY MANAGEMENT SOLUTIONS

## Track and control the boring stuff that makes the cool stuff.

Applied MSS<sup>SM</sup> customized solutions combine the most flexible inventory management systems available with robust intelligence software made to improve productivity, increase efficiency and reduce inventory costs.

A well-organized parts area for consumable items can save a company thousands of dollars a year in the reduction of downtime and time spent chasing parts off-site while improving overall shop productivity. There can be many challenges in trying to accomplish this on your own.

At Applied Maintenance Supplies & Solutions<sup>®</sup>, we understand and we're here to help.

Applied MSS<sup>SM</sup> specializes in the identification, organization, replenishment and supply of all the major categories of consumable maintenance parts used in your daily operations. Our goal is to provide quality products, and help you increase productivity through our service, dedication and commitment.

# CONTROL

INDIVIDUAL CONTROL	COMPARTMENT LEVEL CONTROL	LID LEVEL CONTROL	CRIB MANAGEMENT CONTROL	VIRTUAL INVENTORY MANAGEMENT
<p>Enable <b>single-item dispensing, for the ultimate in control</b></p> <p>SupplyBay SmartDrawer SupplySystem</p>	<p>Allows <b>multiple item/SKU dispensing</b> and control per compartment.</p> <p>SupplySystem</p>	<p><b>Item/SKU dispensing per lid</b> for single or multiple quantities per compartment. Compartments may be defined as consumable or take/return on a per lid basis.</p> <p>SmartDrawer</p>	<p>Allows anyone with Android-based products to <b>track transactions</b> for items not within a SupplyPro device. Inventory is managed and tracked with full SupplySystem software reporting capabilities and business rules.</p> <p>SupplyMobile</p>	<p>The SupplyPro Virtual Inventory Module tracks transactions for products not physically located within a device for inventory tracking, usage and reporting. It can incorporate customer's existing cabinets, shelving or storeroom facilities.</p> <p>SupplyPro VIM</p>

## 6-S INVENTORY CONTROL

The 6-S System allows Applied Maintenance Supplies & Solutions® to manage MRO inventory to customer specifications. Using Lean Principles keeps your small parts inventory organized and in stock, using state-of-the-art technology.

### Benefits:

- » **SORT** – Organize, sort and separate what parts are needed & not needed in the work area
- » **SET IN ORDER** – Bin, label and arrange items so that they are ready & easy to use
- » **SHINE** – Maintain a clean workspace for ease of identifying parts
- » **STANDARDIZE** – Set min and max levels on a frequent basis and revisit to confirm usage
- » **SAFETY** – Maintain a safe work environment and continue to improve safety in the workplace
- » **SUSTAIN** – Consistent service that continues to improve every day

# WE BRING ORDER TO CHAOS<sup>SM</sup>

## WE BRING ORDER TO CHAOS<sup>SM</sup>

At Applied MSS<sup>SM</sup> we transform your current operation into an efficient, fully-stocked, custom parts system. Installing the right storage solution in your shop will provide a substantial ROI through reduced down-time, increased productivity, space savings and less time wasted looking for the right part.
