Track and control the boring stuff that makes the cool stuff.

THE DIRECT COST OF INDIRECT MATERIALS

When someone said, “It’s the little things that get you,” they probably weren’t talking about gloves, batteries, belt sanders or safety goggles. But with U.S. companies annually spending upwards of \$150 billion on indirect materials — and roughly half of that inventory going unused each year — it certainly applies. Fortunately, there’s already a way for businesses to save up to 30% on indirect material spending.

APPLIED MSSSM INVENTORY MANAGEMENT SOLUTIONS

Applied MSSSM has partnered with SupplyPro® to bring you industry-leading inventory management solutions and improve the availability, tracking and control of more than 60 million SKUs. Our customized solutions combine the most flexible inventory management systems available with robust intelligence software to improve productivity, increase efficiency and reduce inventory costs.

30%

MANY COMPANIES
HAVE ALREADY REDUCED
THEIR MRO CONSUMPTION
BY AS MUCH AS 30%

Small Parts Causing Big Prob

A well-organized parts area for consumable items can save a company thousands of dollars a year in the reduction of downtime and time spent chasing parts off-site while improving overall shop productivity. There can be many challenges in trying to accomplish this on your own.

At Applied Maintenance Supplies & Solutions®, we understand and we're here to help.

Applied MSSSM specializes in the identification, organization, replenishment and supply of all the major categories of consumable maintenance parts used in your daily operations. Our goal is to provide quality products, and help you increase productivity through our service, dedication and commitment.

The Levels of Control

Our rugged equipment provides whatever levels of access, control and tracking you need — from single item, multi SKU, and weight-based, to compartment, door, and lid-level, to consumables, returnables, tools and calibrated items — we've got it covered.

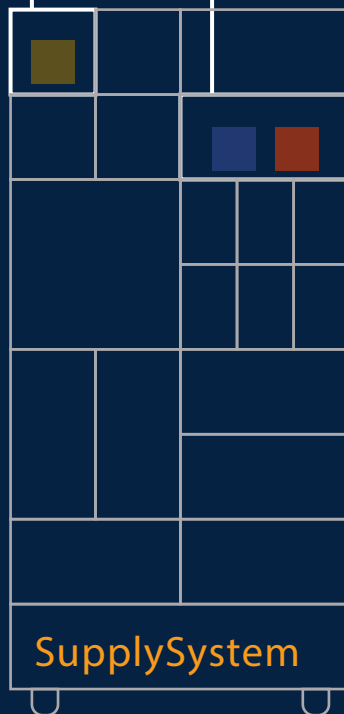

INDIVIDUAL CONTROL

SupplyBay, SmartDrawer, & SupplySystem all enable single-item dispensing, for the ultimate in control.

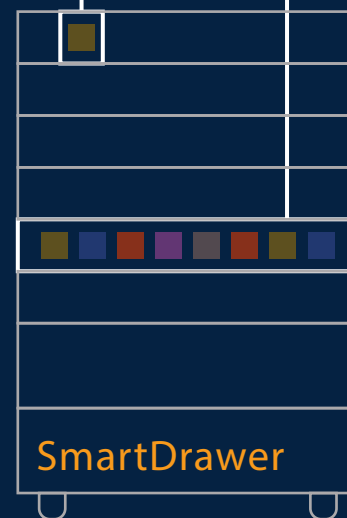

COMPARTMENT LEVEL CONTROL

SupplySystem allows multiple item/SKU dispensing and control per compartment.

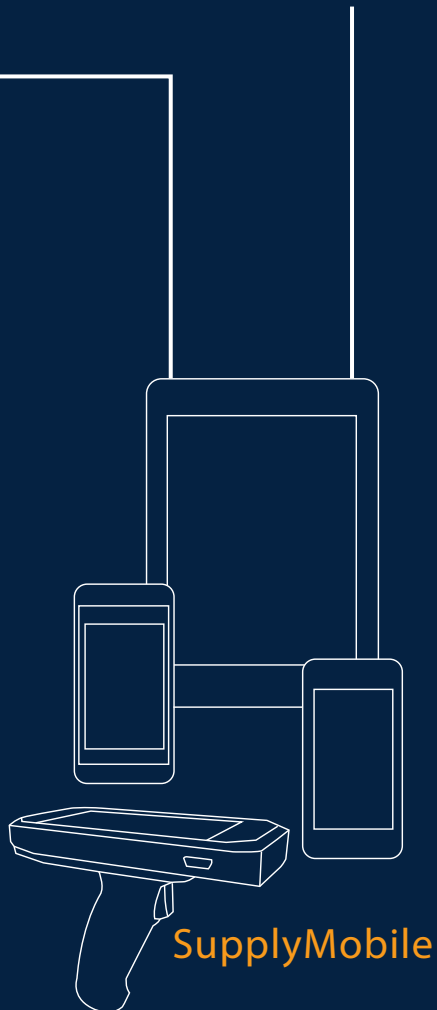

LID LEVEL CONTROL

SmartDrawer features item/SKU dispensing per lid for single or multiple quantities per compartment, incorporating SupplySystem SecureBin technology. Compartments may be defined as consumable or take/return on a per lid basis.

CRIB MANAGEMENT CONTROL

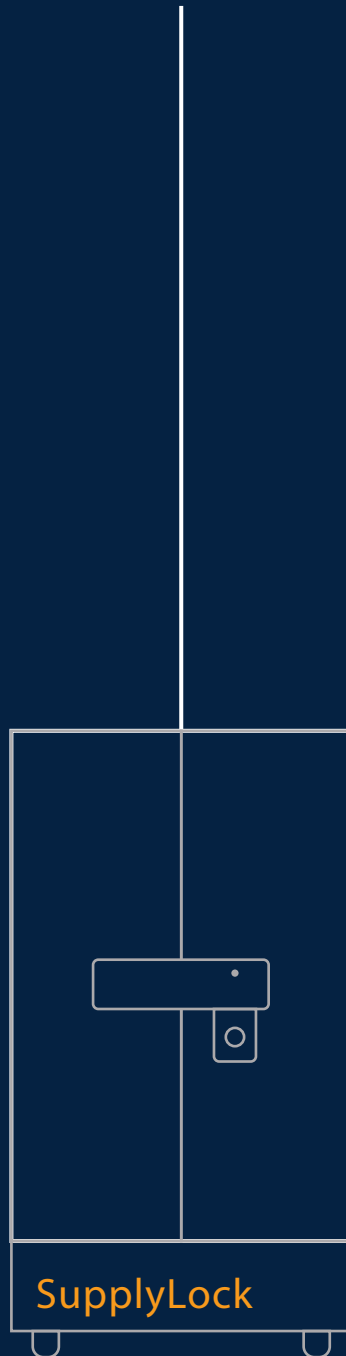

SupplyMobile allows anyone with Android-based products to track transactions for items not physically within a SupplyPro device. Inventory is managed and easily tracked with full SupplySystem software reporting capabilities and business rules.

SupplyMobile

CUSTOMIZED CONTROL

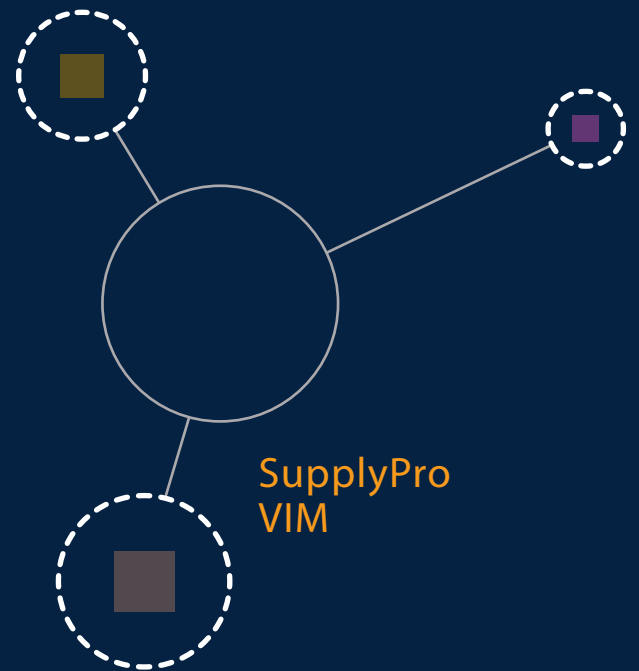

SupplyLock provides electronic lock management for existing shop floor cabinets, drawers and storage units.

SupplyLock

VIRTUAL INVENTORY CONTROL

The SupplyPro Virtual Inventory Module tracks transactions for products not physically located within a device for inventory tracking, usage and reporting. It can incorporate customer's existing cabinets, shelving or storeroom facilities.

Applied MSSSM 6-S Inventory Control

The 6-S System allows Applied Maintenance Supplies & Solutions® to manage MRO inventory to customer specifications. Using Lean Principles keeps your small parts inventory organized and in stock, using state-of-the-art technology.

Benefits:

- » Sort – Organize, sort and separate what parts are needed & not needed in the work area
- » Set In Order – Bin, label and arrange items so that they are ready & easy to use
- » Shine – Maintain a clean workspace for ease of identifying parts
- » Standardize – Set min and max levels on a frequent basis and revisit to confirm usage
- » Safety – Maintain a safe work environment and continue to improve safety in the workplace
- » Sustain – Consistent service that continues to improve every day

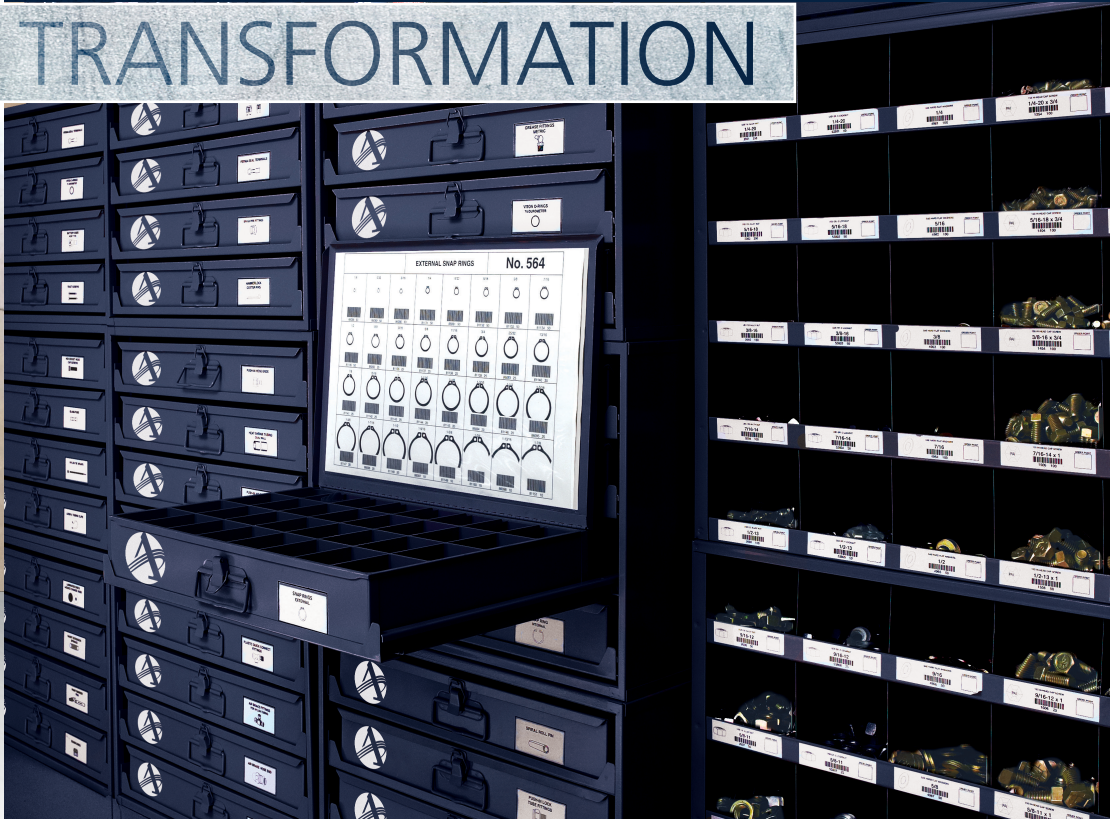

Improve your operational productivity with a lean managed system.

We Bring Order to ChaosSM

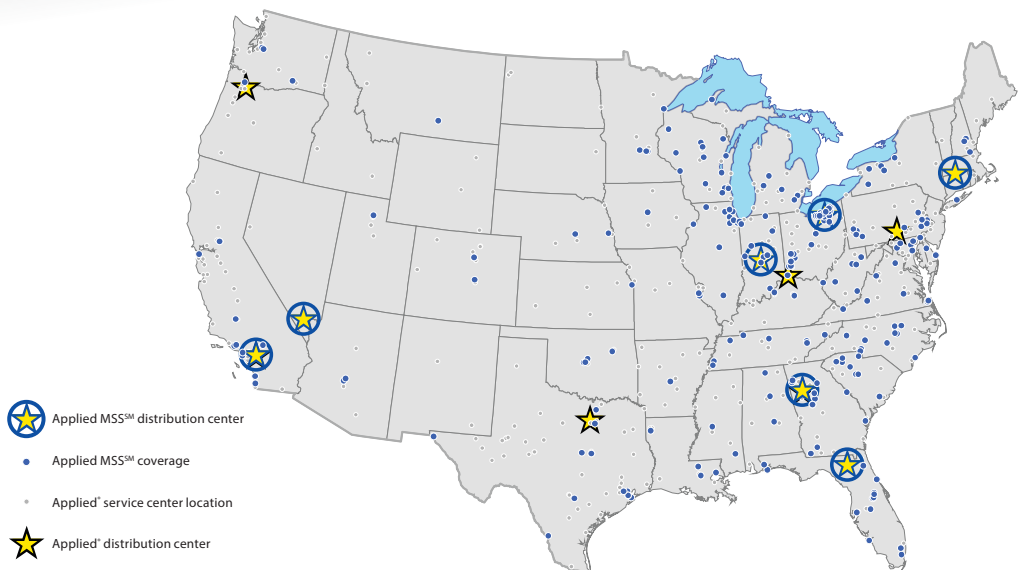

At Applied MSSSM we transform your current operation into an efficient, fully-stocked, custom parts system. Installing the right storage solution in your shop will provide a substantial ROI through reduced down-time, increased productivity, space savings and less time wasted looking for the right part.

TRANSFORMATION

Conveniently Located to Best Serve You

Wherever you're located in the United States, an Applied Maintenance Supplies & Solutions[®] representative is nearby and ready to provide the products and consultation needed. Applied MSSSM has access to more than 250,000 SKUs with 40,000 SKUs in stock and ready for delivery—ensuring that you get the parts you need, when you need them! Choose from our variety of Fasteners, Electrical Products, Chemicals, Fittings and Hoses, Cutting Tools and Safety Equipment.
