**Business Partner:**

At Applied Industrial Technologies, our policy is to continuously improve efficiency and service to our customers. As part of this initiative, we are encouraging that payments be made via Electronic Funds Transfer (EFT), which eliminates the printing and mailing of paper checks while also saving time and postage costs.

Transactions are processed by an Automated Clearing House (ACH) system and sent to the receiving bank Applied has authorized for the electronic payments. The preferred ACH transaction type is the Corporate Trade Exchange (CTX) payment format. This method allows for the money value and remittance detail to move through the banking system together and ensures that our bank will process the payment and remittance records for us. The CTX format is preferred but not mandatory other formats are accepted. If you have questions regarding this, please contact Karen Nadeau at 216-426-4377 or email [knadeau@applied.com](mailto:knadeau@applied.com).

For our bank to apply customer payments accurately, reference the Applied Industrial Technologies invoice number(s) only. Payments not handled in this manner may result in a delay of posting.

To switch from paper checks to ACH payments, please use the information listed below to set up Applied Industrial Technologies in your system.
