

## RapidGRIND™ Ceramic Grinding Discs

RapidGRIND™ Ceramic Grinding Discs are engineered for high-performance metalworking, combining aggressive material removal with an ergonomic design that keeps you working longer and finishing faster.

### WHY CHOOSE RAPIDGRIND™?

**COOLER, FASTER, BETTER:** The state-of-the-art **ceramic grain** doesn't just cut—it plows through material. Experience rapid stock removal while maintaining a cool grinding temperature, protecting your workpiece from heat discoloration.

**THE COMFORT OF PERFORMANCE:** The **Modified Type 29M** shape provides a more natural, comfortable working angle. This optimized geometry expands the surface work area, ensuring you get the most out of every disc while extending its lifespan.

**PRECISION WITHOUT THE PAIN:** Say goodbye to the "buzz." RapidGRIND™ discs are **vibration-free**, drastically reducing noise levels and dust clouds. More importantly, it minimizes operator fatigue, allowing for precision control through the longest shifts.

**READY TO WORK:** No extra hardware, no hassle. With **no back-up pad required**, these discs mount directly to your angle grinder so you can get to work in seconds.

### APPLICATIONS

**SURFACE GRINDING:** Achieve a uniform finish with less effort.

**WELD REMOVAL:** Level beads in a single pass without gouging.

**EDGE & DEBURRING:** Clean up sharp edges with surgical precision.

**BEVELING & CHAMFERING:** Prepare pipes and plates for welding with ease.

PART #	DIAMETER	ARBOR SIZE	GRIT	MAX RPM	QTY.
122228764	4-1/2 in	7/8 in	36	13,300	5
122228765	4-1/2 in	7/8 in	50	13,300	5
122228766	4-1/2 in	5/8-11	36	13,300	5
122228767	4-1/2 in	5/8-11	50	13,300	5
