

DOMESTIC KWIK CUT® SPIRAL POINT TAPS

Designed for demanding applications, **Domestic Kwik Cut® Spiral Point Taps** deliver high-performance threading under the most challenging conditions. These premium taps are engineered to optimize your machining efficiency through a combination of advanced design and durable materials:

- **Advanced Tool Geometry:** Creates less torque, runs cooler, and provides better removal of chips.
- **Built for Tough Materials:** Specifically designed for challenging applications like stainless steel, alloy, and high-carbon steels.
- **Gold Oxide Coating:** Enhances lubricity, reduces friction, and increases overall tap toughness.

Upgrade to **Domestic Kwik Cut® Spiral Point Taps** to achieve clean, precise threads while extending your tool life on the shop floor.
